Pull Handles

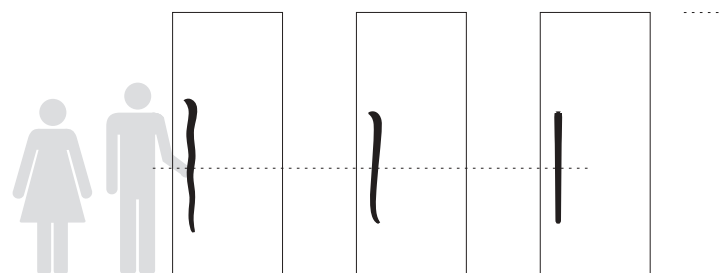

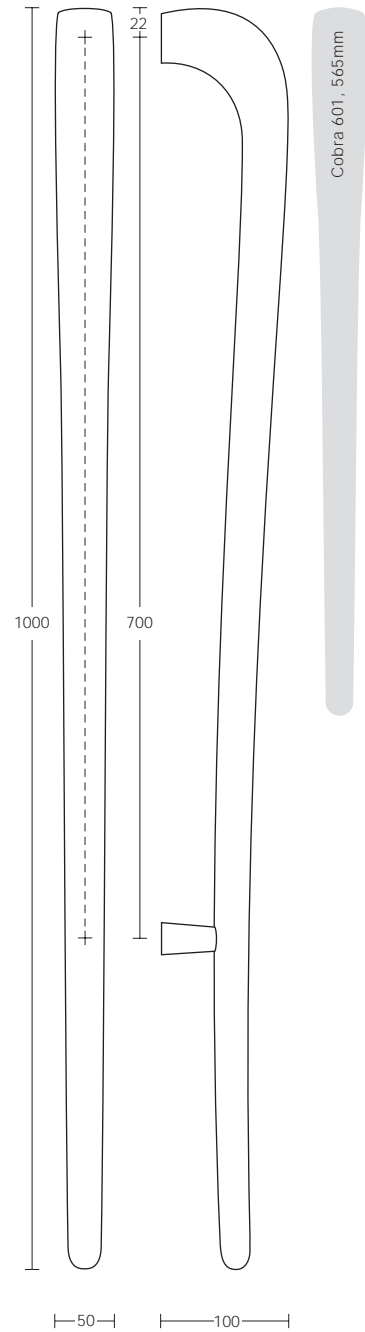

Mason Samba PM00

Mason Swim PM09

Chant Cobra 600

This series of handles are additions to existing families of handles manufactured by *chant™*. They have been designed for oversized doors where large pull handles are required. Refer to *chant™* and *Mason* catalogues for pull and lever handles in smaller sizes in each corresponding family.

All three handles are shown at the same scale. Note the size difference between the handles and the light grey indication of the next model down.

The Mason Samba PM00 and Swim PM09 are shown as left hand handles as viewed from the outside or the concealed fixed side. Available as right hand handles also.

Mounting options available: Refer to technical specifications in the *Mason* catalogue or *chant™ technical*.

Option 1 – back to back (BTB)

Option 2 – back fixed (BF)

Option 3 – surface fixed (SF)

Mounting bolts are M8 (8mm diameter)

Hole required in glass doors: 12mm

Handle weights:

The PM00 and PM09 weigh 18kg per pair, and the Cobra 600 weigh 16kg per pair. Please ensure door and structure are sufficiently strong to support this added weight.

Product Finishes:

Polished bronze	PBZ
Polished chrome	PCP
Satin chrome plate	SCP
Copper plate	COP
Polished brass uncoated	PBU
